Subject	Date	Start time	Venue

Where do I check for updates?

TASC official timetable and key dates

Scan the code for the official source. Confirm the timetable with your school before travelling.

Source checked 6 November 2026.

PRINTABLE SCALING CHEAT SHEET

ATAR scaling at a glance

A quick reference for VCE and NSW HSC students

What does scaling do?

It puts subject results on a comparable basis for the ATAR. The ATAR is a rank. A scaled score is an input to the aggregate that is used to determine that rank.

Victoria / VTAC

The standard VCE calculation uses your highest eligible English-group scaled study score plus your next three eligible scaled study scores. Eligible fifth and sixth studies may each add a 10% increment. Check VTAC for study-group restrictions and other increments.

New South Wales / UAC

The standard NSW HSC aggregate uses your best two scaled units of English and the best eight scaled units from your remaining courses. Check UAC eligibility rules and the treatment of extension courses.

How should I use a scaling table?

Read it as a record of a particular cohort. For subject selection, check prerequisites, interests and strengths. Use your admissions authority for eligibility and official results.

VTAC / Results and the ATAR

UAC / How your ATAR is calculated

ATARMAxxing / ATAR calculators and state guidance
